A special lecture on the role of Hallyu (the Korean Wave) in shaping Korea-Japan relations. This lecture will explore the impact of Hallyu from a public diplomacy perspective and highlight the importance of soft power in fostering Korea-Japan cooperation. We will discuss how Hallyu culture, particularly the influence of BTS, serves as a bridge in the fluctuating relationship between Korea and Japan. With approximately 7.5 million Hallyu fans in Japan, the enthusiasm for BTS among Japanese youth acts as a stabilizing force in bilateral relations. This lecture aims to provide insights into the mechanisms through which Hallyu influences reconciliation and coexistence, offering objective solutions for mutual understanding and cooperation.
